HOUSE OF REPRESENTATIVES.

THURSDAY, December 21. DEBATE

ON THE JOINT RESOLUTION Approving the conduct of the Executive in relation to the refusal to receive any further communication from Francis Jas.

CONTINUED.

In committee of the whole Mr. BASSET in the chair-

Mr. Ross's speech continued.

It has not been made to appear what were the particular conditions on which Mr. Erskine was to act with respect to the Chesapeake; all that we know on the subject we know from Mr. Jackson; and I must confess that after the evasive and insidious manner in which he conducted in his correspondence in this country, I am disposed for one to give but little credit to him. Pope says somewhere "the proper study of mankind is man." I know no use of this study, unless the characters of men are to have an influence on the opinion which we form of their actions. Mr. Canning's character appears to me to have been such a one as might be expected to produce such a minister as Mr. Jackson has proved himself. He who would undermine his friend and colleague, as Mr. Canning did Lord Castlereagh, could not be expected to do better by Mr. Erskine, or to act fairby and honorably with us; and therefore Mr. Jackson, whose abilities, whose inso-Jence and whose perfidy had already been proved to be equal to any political project, however dishonorable, was commissioned by Mr. Canning to succeed Mr. Erskine. This observation with respect to the charecter of Mr. Jackson, I hope will be recollected by the house during the remainder of my observations.

I now come to what I conceive to be the second point, and the great and important point necessary to be decided on this occaion. If the gentleman from Connecticut (Mr. Dana) was really in carnest when he declared to this house that, if the government of his country had been charged with falsehood and insulted, it was such an Indignity as ought to receive the reprobation of every American-I might entertain n hope that he would yet be induced to vote for this resolution. For I think it as clear-By demonstrable as any thing that could be rangersted, not only that Mr. Jackson did imake use of those expressions attributed to him, but that he did it with intent to insult

the government.

What are the enquiries which naturally arise under this resolution? 1st. Did Mr. Tackson in his letter of the 23d of October make use of expressions "conveying "the idea that the executive government of the United States had a knowledge that the arrangement lately made by Mr. Erskine, his predecessor, on behalf of his government, with the government of the United States, was entered into without competent powers on the part of Mr. Erskine for swered in the affirmative, the next question will be, was such an insinuation 4 highly indecorous and insolent?" These are the two enquiries contained in the first part of the resolution. 3dly. Did he repeat the some intimation in his letter dated the 4th of Movember, 1809, after he was apprised by the secretary of state that the executive overnment had no such knowledge, and that if it had possessed such knowledge, such an arrangement would not have been entered into on the part of the U. States, and after also being officially apprised that such intimation was madmissible? And if he did was not such intimation still more insolent and affronting than the first intima-tion thereof? If I shall be able to shew that the first question must be answered in the affirmative, the same proof which I shall produce for that purpose, will show also that the other question must be answered in the affirmative. The first being be only disputed point, will therefore alone require investigation. It is admitted that the Smith did by his letter of the 19th of

October, 180 minutes Mrs. Jackson that the state he vessels committing them were our government had so knowledge that under their flags.

Mr. Erskine was not invested with came.

Respectfully submitted. petent authority to make the disconnect arrangement until they had received it famous form. Jackson and that if h y and been personal would not have been made. And it is not disputed that Mr. Smith did by his letter of the 1st of November, 1809, inform Mr. Jackson that a language implying a knowledge on the part of our government that the instructions of Mr. Ersking did instant. that the instructions of Mr. Erskine did not authorise the arrangement made by him after an explicit asseveration that our povernment had no such knowledge; was inadmissible.

With these admissions let us examine she letters of Mr. Jackson, and see whether he has not been guilty of the charge contained in the resolution.

BRITISH, FRENCH, AND DANISH CAPTURES.

The following messages were received on Friday last, from the President of the U States, by Mr. Graham :

To the House of Representatives of the United States.

I communicate to the house of representatives, the report of the secretary of state on the subject of their resolution of the 6th December last.

JAMES MADISON. Fanuary 12, 1801.

The secretary of state respectfully reports to the President of the United States, agreeably to a resolution of the house of representatives of the 6th December, 1809, that the enclosed papers, from A to E contain, in substance, the information which has been received at this office respecting seizures, captures and condemnations of ships and merchandize of the citizens of of the United States, under the authority of the government of Denmark.

A. A memoral of sundry Americans at Christiansand to the President of the United States.

B. Translation of an extract of a letter from Peter Isaacson lately appointed consul of the United States at Christainsand, to the President of the United States, dated August 11, 1809.

C. List of vessels which have been carried loto the ports of Denmark and Norway, received from Mr. Jaabye, consul o the United States at Copenhagen.

D. Extract of a letter of Mr. Saabye to the secretary of state, dated August 1

1809.

E. Resolutions and memorial of merchants of Philadelphia.

The secretary of state reports to the President, that information has been received at this office, within the period embraced by the resolution referred to, of the capture of American vessels by those of Great Britain, under various pretexts, viz. for dealing by bills of axchange in an enemy's country, for colonial produce, violating the British orders in council of January and November 1807, for infringing the blockade of Martinique, for being engaged in the Vera Cruz and colonial earrying trade; and of the seizure of some American vasels at Curracoa, at Ceylon and in China, for reasons not distinctly stated. It is to be observed, however, that the papers in this offich afford but a very imperfect account of the British captures of American property -and it is for this reason that a detail is not attempted in this report; more particularly as no official accounts have been received on which to ground one.

The secretary begs leave likewise to state to the President, that within the period embraced by the resolution, property to a considerable amount, belonging to sitizens of the United States has been captured and seized by the French, for violations of the Berlin and Milan decrees and under other pretexts; that in some instances the merchant vessels of the U. S. have been burnt at sea by French cruizers, and, in others, the indemnity of the vessels and property has been purchased by the means of bill of exchange drawn by the captains of the American vessels upon their owners, at a rate imposed by the captors. The accompanying statement of American vessels condemned by the imperial council of prizes at Paris, from the 18th of December, 1806, to the 26th May, 1809, received from Mr. Warden, acting as consul of the United States at Paris, more particularly explains the grounds of French captures.

It is to be observed, however, as to many of these acts, that they can no otherwise be considered as having been done under the authority of those governments

JAMES MADISON. . January 12, 1810.

The secretary of state has the honor to report to the president in conformity to the resolution of the house of representatives of the 3d instant, that no information has been received at the department of state relative to the blockade of the ports of the Baltie by France, and of the exclusion of neutral vessels by Russia, Sweden, & Denmark. As it is presumed however, that the enclosed papers, the first a translation of an "Ukase" of the Russian government, dated on the 14th of May, 1809, and the second a translation furnished to this department on the 10th of January last, by the charge des affaires of Denmark, of such parts of the instructions given to the privateers of that country on the 14th of September, 1807, as were supposed to be most interesting to neutrals, and may have some connection with the object of the resolution, they are respectfully submitted.

R. SMITH. Department of State,

These messages, with the documents accompanying the same, were ordered to be printed.

NORFOLK, January 12.

Mr. Joseph H. Pierce of Boston, pas senger in the ship Cordelia, capt. Midles, of Philadelphia, has just arrived in this town, and has politely favored us with the following marine, commercial and political information.

The Cordelia sailed from Rio Janeiro on the 3d of Nov. last, and left the following American vessels in that harbor, viz. Ship Mount Hope, Breeze, of Salem, from Newport, R. I. destina in unknown ; ship Lausa, Seaver, of and from Boston, via Seara Granne, (on the north coast of Brazil) des ina ion unknown; sch'r Mary. Lincoln, of and from Boston, for Havanna or Boston in about 20 days; ship Passenger, Perry, of and from New York, for the Cape of Good Hope, in ballast, to sail the 10th of Nov. brig Hollon, Willis, of and from Philadelphia, via Teneriffe, for River Plate, in ballast, to sail 6th of Nov. The ship Huntress, Williams, and sch'r Hope, Story, from New York, on a Sealing voyage, put into Rio Janeiro to repair, and sailed again in company about the 26th Oct. last. Several vessels from the United States had touched at Rio Janeiro during the season and had sailed again, without being able to sell their cargoes. The large number of English merchant ships, which were continually arriving at Rio Janeiro had glutted the market with almost every article of merchandize usually carried there; and business in general was dull.

The following ships under the British admiral de Courcey, were laying in the harbor of Rio Janiero Nov. 3d viz. Foudroyant 74, Elizabeth 74, Lightning 18, Nancy 12 guns. The Bedford 74. (belonging also to this squadrop) had sailed on a cruize. The mainmast of the admiral's ship, the Foudroyant, had been injured, and was out to be repaired. A number of Portuguese ships of war were also at anchor there. Admiral de Courcey's conduct had been such as to do away any unfavorable impressions which might have been made on the Portuguese, by his predecessor on that station; of course, the former had become very popular with the people generally. The prince regent and princess had been some weeks at Santa Cruz, his country residence, (about 45 mile from the city of Rio Janeiro) where he remained indisposed. The old queen of Portugal (mother to the prince regent) resides at the palace in the city.

Intelligence of a contradictory nature, from the River Plate, had been received by different vessels, but by the last accounts brought from thence to Rio Janeiro, which came in a lugger, in 15 days passage, it was ascertained, that the Vice Roy, (who arrived there from Spain last summer) considered the trade as actually under the same regulations which governed it before the British troops come there. The English. notwithstanding, had been able to smuggle on shore several cargoes of goods. A name bar of vessels from the U.S. were said to be in the River Plate, waiting in hopes that some favorable arrangement might be

She was 10 days out from New-York, bound to St. Bartholomews, in ballast; the detention was said to be principally founded on a letter discovered on board the schooner, which induced the commander of the sloop of war to believe she was French property. The Cordelia experienced from each of these ships of war the most polite treatment.-The ship's papers were not asked for (nor shewn) nor was her crew mustered, or protections enquired for in either case. Effects of the Non-Intercourse .- We asecrt it for a fact, and which our readers may rely on, that an American vessel which had gone off, arrived lately at an English island, with a cargo of flour, and was not permitted to land it, but sailed with it for St. Bartholomews where she has arrived. Does not such a fact illustrate better than all the fine-span arguments of visionary statesman in support of this foolish system? Does it not prove that Mr. Macon's bill is a wise measure, compared with the half way measure of non-intercourse?

THE NEW GOVERNMENT OF SPAIN; And a great Battle expected to be fought. The following very interesting intelligence direct from Seville, proves that the Spaniards are making the greatest efforts to rid their country of their enemies, and that the new government has commenced its operations by infusing new energy into the people, and taking the most vigorous steps for preserving the kingdom. The news of a great and decisive battle having been fought, may be expected by the next arrivals.

It is reported that the French have carried off all the heavy artillery they had at the siege of Gerona, which place still holds out and has of late received some reinforcements besides some provision and ammuni-

wards Madrid, as also are the British at dajus that we expect shortly some pacinive Blow will be given. God grant them success. The generals have issue orders to fire on the first man that retreats, so that I hope you will soon have the news of a great victory obtained by the patriots."

Extract of a letter from Tunio, to a house in

New-York, dated October 18, 1809. " Since my last several rich cargoes have arrived principally from Baltimore; three have gone to Naples to encounter the English without, and a precarious reception within, one a brig from Baltimore with a eargo of colonial produce worth 100,000 dollars has landed her cargo here to wait a change, as every port in the Adriatic and Levant is overstooked. What could have induced our merchants to have such a vast property here I cannot conceive, they must have been at a loss what to do with it, or led away by Jackson's fine account of the resources and trade of the Barbary ports .-They are totally ignorant of the rigor with which the French decrees are enforced, if they hoped to find a market in France, where colonial produce even coming from Guadaloupe (unless in a French bottom) and having the best certificates of origin, would be confiscated for having touched at a neutral port, even should the vessel not have been boarded by the British. In Italy some cargoes have been introduced, but under circumstances of great risk.

The prices there have fallen, and are falling so as to render that undertaking too hazardous for the prospect of gain. In short I know not which way to turn, and would most willingly give up all my time, and all I had the hope of making to ges our of this internal hole. Some of our countrymen had an idea that the flag of the regencies could be used to advantage, but this is inexpedient in every respect, you are neither safe on sea or land. The only one who has tried it is Mr. F. of your place, whose enterprising character you know; he sailed from here last June for Marseilles, on his arrival the vessel was seized and he put in prison, in which state matters remained by last accounts. No confidence can be had in the Moors, who must become your agents in cases of this kind, not merely because they might themselves be disposed to take advantage of you, but because their lives and property are wholly at the capricious disposal of the Bey .-Should he at any time take a liking to you vessel and cargo, standing in the name of one of his subjects, he would find a pretext for seizing them, or would take them at his own price. A transaction has recently taken place here which will put the subject clearly before you. Hadji Junes Ben Junes, a rich Moor, had for many years monopolized, almost exclusively, the trade of Tunis, and was for credit and wealth on the highest pinacle, in high favor at court, and bearing down with Leviathan force, all the small fry of adventurers; none dare to undertake any thing which might in the smallest degree mitigate against his concerns; he was a few days since, at the age of 70 years, thrown into a dungeon neck and heels, his houses, lands, vessels. money, goods and papers, seized by the Bey. His head clerk, a christian, by the name of Andre Poge, was also seized and condemned to receive 1000 bastingdos, 300 of which were inflicted yesterday when the unfortunate man was too far exhausted to support more, the execution was of course postponed; he will be a slave for life unless he can pay 100,000 dollars. All this arbitrary proceeding is on the pretence that Hadji Junes had been earrying on a correspondence unfriendly to the reigning prince.

The American character stands very high here : Eaton with all his foibles gave them an idea ofout bravery which they consider inherent—and although they have a good notion of our small naval force, I believe the Bey would souper have war with any other christian power. A frigate should peep in upon these gentry now and then, as a kind of memorandum, particulaily as so much property is under their thumb."

> Mr. W. Alston spoke in favor of the rule, as did Mr. Rhea.

> Mr. Sheffey spoke against the rule. He considered it an encroachment on the liberties of speech, and he could never submit

Mr. Nelson was also against the rule-he believed the previous question was not well understood in the house, or perhape he did not understand it. According to the construction now put upon it by those who advocated it, he believed it to be one of the most wicked and mischievous regulations ever introduced.

Mr. Dana rose again to explain the former usages of the house with respect to previous question.

Mr Ross was in favor of the rule, he thought it absolutely necessary for the government of the house and to facilitate the business of the nation.

The question, shall the committee of the whole have leave to sit again? was put and

The merits of the repor committee who reported the rules and orders of the house were then taken up.

Mr. Dawson moved to strike out the offensive rule, in order to introduce the rule as formerly practised.

Mr. She.ffey moved to divide the question so as to take the sense of the house on striking out first. The year and nays were called on this question.

Mr. P. B. Porter spoke at considerable length in favor of the rule. He did not wish to disguise the rule-It went to give the majority the privilege of closing debate when they thought proper; and he contended that this power was necessary to the majority-As they had power to make laws, they ought to have power to silence the opposition.

Potomac Land for Sale.

Wishing to remove to the upper country, I offer for sale, the FARM, on which I live, in the country of King George, lying on the Potemac River and Resier's Creek, and containing about 700 acres; about 300 of which are cleared, and the larger porlow grounds; the residue of the tract is about equally divided between oak and cedar, the latter peculiarly valuable for all the purposes of enclosing. The preference which this place claims over most others in the advantages of living, such as wild fowl, fish, oysters, crabs, &c renders it an highly desirable establishment for any gentleman who may wish to reside on tide water. The improvements on this property are complete, consisting of a two story dwelling house, 60 by 30 feet con-taining seven rooms, with passages and ex-cellent cellars; another two story dwelling house, containing three rooms and a cellar; house, containing three rooms and a cellar as a new meat house, dairy, ice house, stables, corn houses, and every kind of necessary enclosure. To this property is annexed a new and most valuable everanet mill, with two pair atones, botting cloth, cob-machine, and ton do. &c. The terms of sale will be made as easy to the purchaser as he can reasonably ask.

TO PARENTS. Pus mexed cases of cures perfor HAMILTONS ELEBRATED WORM DESTROYING LOZEA GES.

Selected from a very numerous list. ARE presented as indubitable proof of the excellence and safety of this valuable specific for destroying worms in the human stomach

From Mr. Benjamin Williams, No. 30, Baltimore street, two doors flower south Gay-

I have a son six years of age, who for lour years past, has been generally in a very un-healthy state, particularly in summer; frequently afflicted with alarming convulsion fits, the whole of his little frame wasted fast, his breath foctid, and almost constant itching at the nose was excited, with other slarming symptoms. During the course of the above period, the advice and essendance of three of the most emineut physicians in Baltimore were successively procured. Each of these gentlemen, in his turn, declared worms to be the cause of the child's disorder, and exhausted his skill in attempting to expel them. Pink root, steel filings, with a variety of other medicines, were administered without the least success. It was once pronounced impossible for the child to live many hours.

I had heard of your Worm Destroying Lozenges, but with many others did not think highly of so cheap a medicine, until a gentleman of my acquaintance (Mr. Wm. S. Moore, auctioneer) in whose family they had been used with good effect, advised me to make trial of them ; I accordingly gave my son a dose agreeable to directions, which soon expelled eight large worms, some of them about eight inches in length; a second dose, brought away four more of similar size; a third dose being administered, no worms ap-peared. The child recovered and now enjoys a good state of health.

BENJAMIN WILLIAMS.

AFFIDAVIT.

Michael Duffy, residing at No. 47, Walkes street, Fell's Point, in the city of Baltimore voluntarily maketh oath that the following statement is just and true :

In the beginning of May last, my three children, a boy of seven, and two girls the one five, and the other three years of age were taken very ill, nearly at the same time, of a common fever, as I then supposed; but was moon convinced the disorder was caused by worms. They were frequently troubled with convulsion fits, and violent startings in their sleep, and with almost continual vomiting and purging, particularly the youngest. I made immediate application to a physician of the first reputation, and his medicines were administered with a confi ence of success, which only increased our disappointment. The children grew daily worse, and I was absolutely without hopes of their recovery. The youngest soon appeared almost devoid of animation, and scarcely an inhabitant of this world. In this distressing moment I was told that Hamilton's Worm Destroying Lozenges had performed many cures in cases equally -desperate. I immediately purchased a box,

and gave each of them a dose, which in a few hours produced the most desirable effects .--The eldest voided a great number of very arge worms, and the second thousands of small ones, many of them not a quarter of an inch-in the youngest they seemed to be con-sumed, and had the appearance of skin and slimy matter. I repeated the dose agreeable to the paper of directions, and they all speedtly recevered a good state of health, which they still enjoy, though 5 months have nearly clapsed, since they were on the borders of The grave, and the death of the whole seemed to be inevitable.

Philadelphia, August 5 1805.

TO H. LEE.

Some time last spring I was afflicted with oss of appetite, giddiness in the head, fever, and great debility, so that I could scarcely walk. In this distressing situation I took many things, but without benefit. An acquaintance in the country sent to me to procure a box of Hamilton's Lozenges. Curiosity, prompted me to read the directions, where I found my complaint exactly described by the doctor. I immediately sent for mother box of the Lozenges, and took one dose, which brought away a large quantity of worms, and I felt greatly relieved. Encouraged by this, I took another dose, which sattended with the happiest effects, as it delieved me entirely, and am now in a better delieved me entirely, and am now in a better state of health thanking a considerable time has nose, and about the seat—convalsions, applicate fits, and sometimes a privation of appeach—irregular appetite, sometimes is for thing food and sometimes vorations—jurging with allmy and feetid stools—romiting—large and hard belly—pains and sickness at the stomach—pains, in the head and thigh, with fowness of apirits—slow fever, with small and irregular pulse—a dry cough—excessive thirst—sometimes paic and unhealthy countenacte, and semanines the face bleefed and health. Persons afflicted with any of the above symptoms, should have immediate recourse to Hamilton's Worm Destroying Lettinges which have been constantly attended with success in all complaints similar to those above

During the last nine years I have been in the habit of using Hahn's Antibilious Pills, prepared by the late Mr. Lee, whenever colds, head ache, or costiveness have rendered medicine necessary; in these cases a single dose has uniformly removed my head ache, and has generally been found sufficient to remove every symptom of a cold, if taken on its first appearance. Induced by the benefit I have received, I have for years past recommended them to many of my friends, and I have the pleasure to inform you, they have invariably succeeded in removing the above complaints,
